IT IS IMPORTANT THAT YOU REGISTER WITH A PRIVATE HOSPITAL BEFORE ARRIVAL IF YOUR PET WILL BE IN QUARANTINE AND NOT QUALIFIED FOR AIRPORT RELEASE.

Even though a pet is in quarantine and observed daily for abnormalities, the pet owner is still responsible for its health care. **Owners must select, contact and register with a hospital** from the above list of security-approved veterinary hospitals. The Quarantine Station operates a dispensary to provide care for minor ailments and is not equipped to handle major medical problems. Should your pet become seriously ill while in quarantine, a station veterinarian will call you as soon as possible. The pet owner is responsible to call the hospital to arrange for the pet's hospitalization. The hospital will then contact the station to confirm arrangement and request transport. The station will transport your pet to the approved hospital at a nominal fee. Depending on the circumstances, your pet may be sent to the hospital it is registered at the discretion of the station veterinarian if the pet owner cannot be contacted in a timely manner. **For the welfare of your pet, it is important that you update our office regarding your current home & work phone numbers and addresses.** Those who do not reside on Oahu must make special arrangements to handle health problems. We also suggest that you consult with your private veterinarian about the health care of your pet while in quarantine. Owners are responsible for transportation fees and all charges accrued at the hospital. **No refunds will be granted for the first two (2) days of hospitalization.** Refunds will be granted for each hospital day in excess of two (2) days during one period of hospitalization, at the daily quarantine rate.

IN CASE OF EMERGENCY: Private veterinary hospitals **WILL NOT** accept animals without prior contact with owners. **We will not be able to deliver your pet to a private hospital in an emergency if your pet is not registered with that hospital.** Therefore, please make arrangements with one of the Approved Animal Hospitals to accept your pet(s) in case of emergency.

Publication of this list does not imply that these hospitals are in any way superior to other veterinary hospitals in the State of Hawaii. It merely reflects the presence of adequate facilities which meet the premises security requirements established by the Board of Agriculture to receive quarantine dogs and cats for hospitalization.
