

BIG ISLAND BEEKEEPERS ASSOCIATION PRESENTS

# PRODUCTS OF THE BEEHIVE CLASS

March 14 & 16, 2017 in HILO at Komohana CTAHR

## Tuesday, March 14, 5-7 pm

PowerPoint lecture, Room D-202

Learn how to utilize the raw resources in a beehive: wax, pollen, honey, and propolis. This workshop elaborates on how these raw products are made & used by the bees, and how they can be harvested & transformed into numerous value added products.

## Thursday, March 16, 5-8 pm

Hands-on session, Room D-202

Create products together to take home. Recipes include how to make candles, lip balm, body butter, deodorant, wood polish, surf wax, and more. Must attend lecture on March 14 to participate.

## Additional Information

Classes are taught by Hawaii Dept. of Agriculture's Apiary Program at Komohana Research and Extension Center, 875 Komohana Street Hilo, HI, 96720

Cost to attend is \$20 for both sessions, includes materials fee.

**Must RSVP to [noelani.waters@hawaii.gov](mailto:noelani.waters@hawaii.gov), or call (808) 339-1977**
