

# Pesticide Safety in FSMA and GAP

What is required for your farm's compliance with Good Agricultural Practices and the Food Safety Modernization Act?

Join us for a workshop on safe pesticide handling, record keeping, worker safety, and backpack calibration.

- Record keeping: how do you write records?
- Worker training: what do your workers need to know?

Presented by

Esther Medrano, Department of Agriculture Pesticides Branch

**\*\*Free log sheets, safety signs, and workbooks available \*\***

1.5 credits from Dept. of Agriculture for Private 1 and Commercial 1a handlers

Bonus information will be provided on crop risk management and insurance presented by

Lily Nugent, AgriLogic LLC Intern

Refreshments provided by North Shore EVP
