

Instructions On How To Add Captions To Video Files With VLC Media Player

About VLC Media Player

VLC is a free media player that works on both Windows & Mac computers. You can use this program to play the HI WPS video files along with their accompanying closed captioning files.

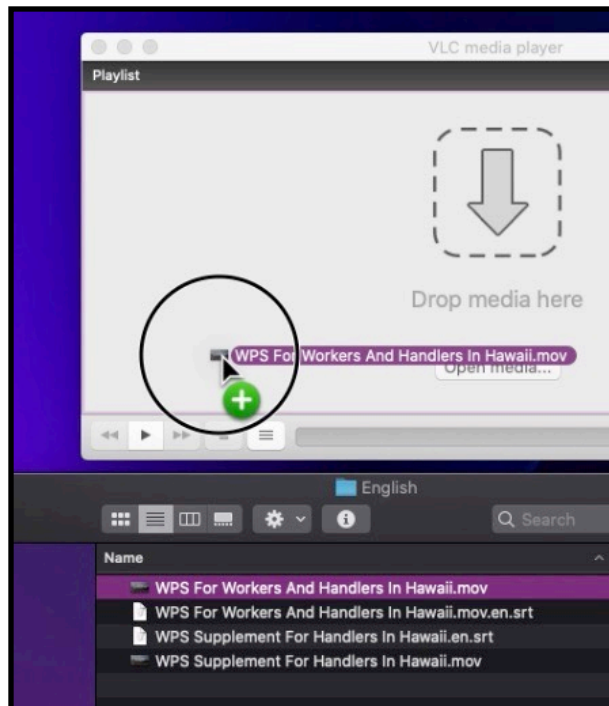

With the VLC Media Player and the video/caption files downloaded on your computer you can play the video files with captions without an internet connection.

Download VLC

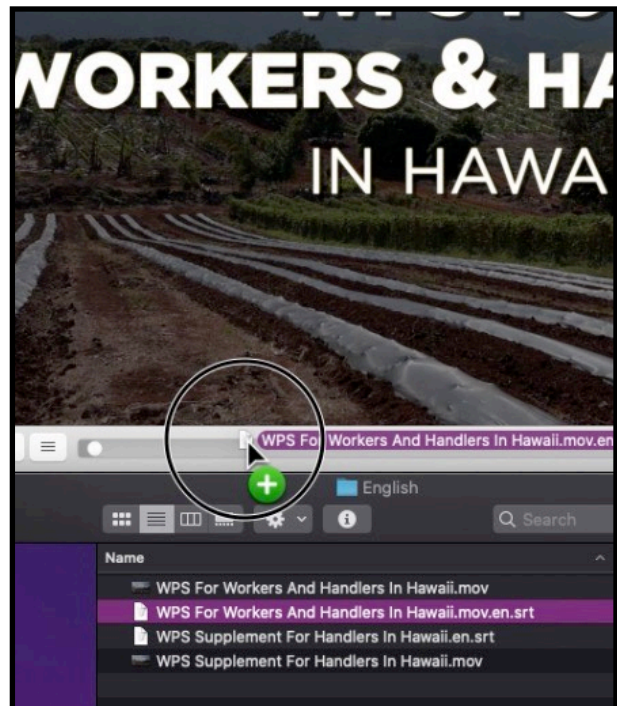

To download VLC Media player simply **go to videolan.org** (or Google VLC Media Player) **and click the blue “Download VLC” button** on the homepage. **Follow the on screen prompts to install the software.**

Open the Video & Closed Captions Files

1. **Open the VLC Media Player** program.
2. Simply drag and drop the video file you wish to play into the player.
3. You can then drag and drop the accompanying caption file into the player as well.

Step 2: Drag & drop the video file (.mov) into the VLC player.

Step 3: Drag & drop the caption file (.srt) into the VLC player.
