GOALS

In order to re-establish agriculture as an essential component for the well-being of our island community, a capable and competent workforce will be required with the ability to fulfill the unique needs of a progressive agricultural industry.

To accomplish this goal, these Agricultural Skill panels will develop statewide strategic action plans to accomplish the following:

- **Educate** government and community leaders about the importance of the agriculture industry;
- **Develop** an action plan to meet the current and future workforce needs of the local agriculture industry; and
- **Offer** solutions and assist with implementation of initiatives that support/grow Hawaii's agriculture industry.

9:30 am - 11:30 am	Panel 1 Business Development	Panel 2 Application of Automation and Technology	Panel 3 Increasing Productivity	Panel 4 Food Safety
<p>Goal: Identify skills that are: 1) limiting opportunities in the agricultural community (group specific) 2) select the highest priority skills.</p> <p>Panel Co-Chairs convene each Panel, introduce facilitators and explain their role. Members introduce themselves and the perspective they represent (education, employer, etc.).</p> <p>The co-chairs go over pre-meeting materials and get agreement on the purposes of the Panel, define the problem statement(s) that will form 3-4 focus areas, and exchange information requested prior to the meeting.</p> <p>Industry leaders identify the workforce concerns and comment on the connection with education, training and recruitment. They should address why industry is at the table for this discussion. What is keeping them up at night related to the workforce needs in these targeted skill sets?</p> <p>Discuss what each group brings to the table—resources, assets, and requirements. Obtain agreement on desired outcomes for the Panel.</p>
