

PROTECTING POLLINATORS

Pollinator Protection During Pesticide Application

FRIDAY, DECEMBER 13, 2013

1PM-3PM

UH-MAUI COLLEGE

\$39

Bees, as well as birds, and other insects are important pollinators.

What is a pollinator? How do they affect your business?

How can pesticide applicators balance the need for crop and site protection with the protection of active pollinators? Are some pesticides more likely than others to impact these creatures? Learn the answers to these and related questions.

Trainer: Steve Russo, Environmental Health Specialist, HI Department of Agriculture

Two CEUs for Categories: Pvt 1, Commercial 1a,2,3,6,8,9,10
