Good afternoon,

Hawaii Department of Agriculture is adding the active ingredient thiamethoxam to Hawaii's list of State Restricted Use Pesticides. The products that will be affected are listed below.

1. Bonide Rose Shield Concentrate, EPA Reg. No. 100-1367-4
2. Bonide Rose Shield Ready to Use, EPA Reg. No. 100-1366-4

These products can continue to be registered as a general use product until 12/31/2022 and if you wish the product to be renewed, then it will be as a State Restricted Use Product.

Let me know if you had any questions.

Esther Riechert
