**REPORT TO THE THIRTIETH LEGISLATURE
2020 REGULAR SESSION
STATE OF HAWAII**

REPORT ON THE AGRICULTURAL THEFT AND VANDALISM PILOT PROJECT

ACT 217, SLH 2019

PREPARED BY:

**THE STATE OF HAWAII
DEPARTMENT OF AGRICULTURE**

DECEMBER 2019

Background

Senate Bill 759, SD2, HD1, CD1 was signed into law as Act 217, Session Laws of Hawaii 2019. This act mandated the Department of Agriculture (DOA) to “establish a two-year agricultural theft and vandalism pilot project to examine the effectiveness of prosecuting agricultural theft and vandalism cases in the counties of Hawaii and Maui, including theft and vandalism affecting individuals who are not full-time farmers or ranchers.” The Department is tasked with evaluating the effectiveness of such as program through the identification of number of convictions, best practices for prosecuting, best practices for coordination with local law enforcement, best practices for reporting, locations of crime, and any preventative measures. The Legislature allotted \$200,000 for FY 2019-2020 to partner with Hawaii and Maui counties to hire one full-time equivalent enforcement officer in each county.

Responses

Findings and recommendations and any proposed legislation:

With the passage of Act 217, SLH 2019, the Department of Agriculture began the process of getting release for the \$200,000 appropriation. On December 2, 2019, the Department received approval for \$180,000 to be expended to carry out Act 217, SLH 2019. We are currently allotting the funds in quarters 3 and 4 of the current fiscal year to work with both counties on the pilot project.

The Department of Agriculture has supported efforts to address agricultural theft and vandalism through its collaboration with the County of Hawaii, Prosecuting Attorney’s Office. The work done with the County of Hawaii has proven to be valuable, hence the reason for Senate Bill 759, SLH 2019 being introduced to further the work underway. With a general fund appropriation, the County will be given the opportunity to carry out important education, outreach, and enforcement to affect change with agricultural theft and vandalism.

The Department of Agriculture would like to note that the Legislature mandated a two-year pilot project to be done, while only allotting a one-year appropriation. The Department recommends that the legislature allot additional funding to allow the two-year program to be completed.
