1 Brandi Ah Yo, Agricultural Resource Management Division presented testimony as  
2 submitted.

3

4 Motion to Approve: Ley/Cabral

5

6 Discussion:

7 Board Member Gomes asked how overgrown the lot is.

8

9 Ms. Ah Yo said it's tall and that it has been vacant for a while. There's not a lot of trees  
10 but a lot of brush.

11

12 Member Ley asked if the lots are well delineated, or do they need to back in and survey  
13 each time?

14

15 Ms. Ah Yo said no, it's well delineated.

16

17 Vote: Approved; Unanimously

18

19

20 2. Request for Approval to Sublease Between the Hāmākua Agricultural  
21 Cooperative, Lessee/Sublessor; and Jianguo Wang, Sublessee; General

2 Motion to Approve: Gomes/Cabral

3  
4 Discussion:

5 Member Ley asked if the dates are transposed on the first paragraph in the background.

6  
7 Ms. Ah Yo said, yes, that's a typo. She said she will email everyone with the correct  
8 information after the meeting to set the record straight.

9  
10 Member Oswald asked what is generating the taxes.

11  
12 Ms. Ah Yo said she isn't sure, but she knows it's federal and state taxes.

13  
14 Ms. Ah Yo asked if Mr. Rodriguez is online but he was unavailable.

15  
16 Member Oswald asked if this was sales tax and if this was from one or multiple years.

17  
18 Ms. Ah Yo said that wasn't provided through the title search.

19  
20 Member Oswald asked if these will be taken care of through the escrow process, so it  
21 gets zeroed out.

22  
23 Ms. Ah Yo said yes.

24  
25 Member Young asked if there were any hang-ups with amounts owed that could be due  
26 to the Department of Land and Natural Resources (DLNR) versus the Department of  
27 Agriculture (HDOA).

28  
29 Ms. Ah Yo said it's all HDOA.

30  
31 Ms. Ah Yo added that to Member Ley's question, the lease effective date is September  
32 1, 2004, and it was transferred to us on September 17, 2008

33  
34 Vote: Approved; Unanimously

39  
40  
41 VI. NEW BUSINESS

42 A. Invasive Species Action Plan Updates

43

1 Jonathan Ho, Plant Quarantine Branch, presented new business item.

2

3 Discussion:

4 Mr. Ho said the Two-Lined Spittlebug Request for Proposals (RFP) has closed and is  
5 for \$240,000. There were two proposals, but they were more than the allotted amount.  
6 HDOA will be using the \$240,000 to fund one proposal, and will be utilizing its own  
7 funds to fund the second proposal.

8

9 He said there was a press release last week for the Little Fire Ant (LFA) Rentokil  
10 Terminix contract indicating what the project is going to do and provide frequently asked  
11 questions for members of the public to let them know how to become eligible. The Plant  
12 Quarantine Branch staff have already provided and verified sites to the contractor and  
13 treatments have begun. The first set is in Aiea followed by Aina Haina and Nuuanu.  
14 These sites have been identified in collaboration with the invasive species committee  
15 and the Hawaii Ant Lab (HAL). He said HDOA is working with them for additional sites  
16 on the island. HDOA has gotten about 22 phone calls and 73 emails requesting test kits  
17 for the program on Oahu. Some people were irate, particularly from Hawaii Island. For  
18 Maui and Kauai, HDOA will work with the Island Invasive Species Committees as they  
19 do a lot of the LFA work on those islands. The contractor is working with the HAL to get  
20 training for their staff on those islands. There is a delay because the HAL staff aren't  
21 readily available. For Hawaii Island, Mr. Ho said HDOA will be pivoting from individual  
22 houses to working with the counties to treat specific public areas that they deem  
23 appropriate for the treatment regimen.

24

25 Mr. Ho said HDOA has about 80 trees for removal with H.T.M. Contractors Inc. primarily  
26 in central and west Oahu. There was a bit of a hiccup with the contractor with the  
27 removing of the stumps and stump grinding, but HDOA resolved that and is working  
28 with the contractor to schedule the actual removal. The work is estimated to start in April  
29 or May.

30

31 Mr. Ho said HDOA has had three bids for the pest diagnostics RFP, and one was  
32 satisfactory so HDOA is drafting that contract.

33

34 Mr. Ho said with some push through the Governor and Lieutenant Governor's office,  
35 HDOA has implemented a pilot program to digitize the declaration forms. The Akamai  
36 Arrival program started on March 1<sup>st</sup>, and it involves all the airlines to differing degrees.  
37 He said in total, about 35% of all flights that are arriving in the state from domestic areas  
38 are in this pilot program right now. He said HDOA has been working with the vendor  
39 and information technology (IT) staff to streamline some of the issues. A lot of the  
40 issues relate to how HDOA is getting the information from the airlines--if the airlines  
41 don't provide the information to HDOA, it's hard to gather the data. HDOA is trying to  
42 find ways to figure this out and then expand the program.

43

1 Mr. Ho said HB427 and SB1100 are basically the House and Senate versions of their  
2 landmark biosecurity bills. The House version intends to create a deputy of biosecurity  
3 to oversee everything, it renames HDOA to the Department of Agriculture and  
4 Biosecurity, and it has an emergency declaration process for biosecurity emergencies.  
5 The Senate version is more comprehensive, and it has transitional facilities which  
6 require inspections of everything. It creates private inspectors for non-agricultural goods  
7 and is very large. The biggest hiccup is that the Senate's version language transfers  
8 where the Hawaii Invasive Species Council resides, and it seems to have subsided.  
9 With the renaming of HDOA, there has been testimony about changing the content of  
10 the board to include more members for invasive species conservation members. These  
11 bills make the Act 231 funds permanent and contain the 42 positions and seek to keep  
12 the funding projects for Coconut Rhinoceros Beetles, LFA and Coqui frogs so HDOA  
13 can continue those projects in perpetuity.

14

15 Motion to adjourn: Gomes/Ley

16

17 The meeting was adjourned at 9:46 am
